Zoom is a synchronous collaboration platform that offers video conferencing, online meetings, and chat. It has some features that differentiate it from Microsoft Teams (https://wit.service-now.com/techspot?id=kb_article_view&sys_kb_id=990f42bc1b76945063590d87cc4bcb0a) which are highlighted in the selected benefits section.

How to get started with Zoom on the web

1. Click Launch Zoom (<https://wentworth.zoom.us/>).

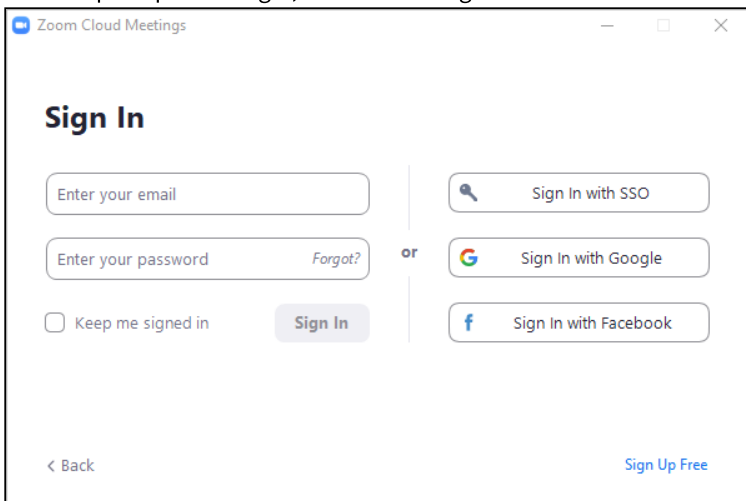

2. Click the blue "Sign In" button.

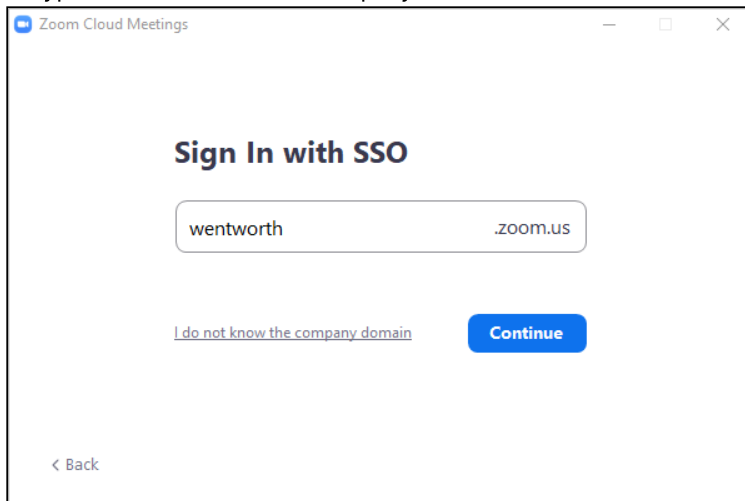

3. Login using your [Wentworth Network Account](https://wit.service-now.com/techspot?id=kb_article_view&sys_kb_id=b50c46b81b76945063590d87cc4bcd2). (https://wit.service-now.com/techspot?id=kb_article_view&sys_kb_id=b50c46b81b76945063590d87cc4bcd2).

How to get started with Zoom software on your computer or mobile device

1. When prompted to login, choose the "Sign in with SSO" button.

2. Type "wentworth" on the Company Domain screen.

3. You may be prompted to enter your Wentworth email address and password. Since we have Single Sign On, if you are using other Wentworth services on the same device you may not see this screen.

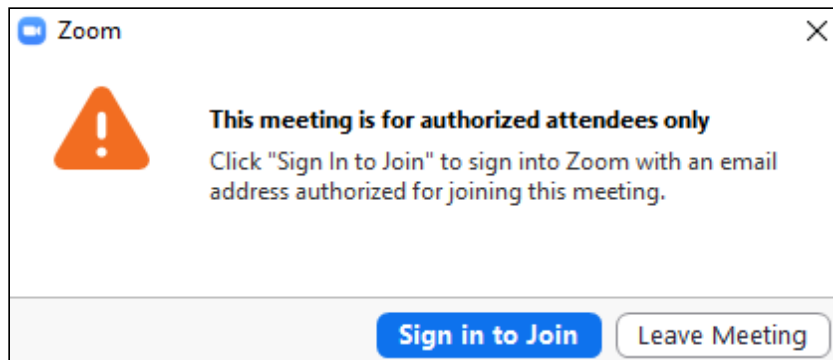

Security Requirements

Meetings hosted by Wentworth require that all participants be logged into Zoom with an account.

This account may be:

- Provided by Wentworth using Single Sign On
- Provided by another employer
- Obtained free by the individual by signing up at Zoom.com

A participant who joins without being logged in with a Zoom account will see a "Not Authorized" message as shown below.
